

# Perspective Decision Tree

We're working with a rectangular ottoman - you know, one of those little stools you put your feet up on

Can you see all/part of the top of the ottoman?

Yes!

It's bird's eye perspective...  
You're looking down on it

No!

Can you see all/part of the bottom of the ottoman?

Yes!

It's worm's eye perspective...  
You're looking up at it

No!

It's eye-level perspective...  
You're on a level with it

Can you see more than 1 vertical side of the ottoman?  
i.e. is it corner-on to you?

Yes!

It's 2-point perspective...  
There are 2 vanishing points

bird's eye

eye level

worm's eye

No!

It's 1-point perspective...  
There's just 1 vanishing point

bird's eye

eye level

worm's eye
